INTEGRAfit

Do your employees know how to properly insert and remove their hearing protection devices?

Create an employee + company partnership to prevent hearing loss with the INTEGRAfit ear protection testing and training system.

INTEGRAfit is a professional quantitative fit-testing device for any type of in-ear hearing protection. INTEGRAfit's iOS iPad App and custom headset work as a standalone testing and education device that fully integrates with Workplace Applications software Audio Software to document, record and evaluate your employee's test results.

Occupational Hearing Conservation Specialists

Workplace Integra is passionate about protecting the hearing of America's workforce. We offer comprehensive occupational conservation services to companies with excessive noise levels in their workplace environments. We partner with companies of various sizes and industries to deliver solutions that prevent hearing loss and ensure compliance with OSHA regulations.

Easy to understand, **all-inclusive pricing** for your audio services.

Doctors of Audiology on staff to deliver professional review & testing oversight.

Fast, professional service with **48-hour average audiogram review turnaround.**

On-demand report access. You're never more than a click away!

Our services are designed to do more than simply accommodate OSHA requirements; we want to support our nation's employers in protecting their people from hearing loss through a service that provides 360-degree guidance, oversight and support. Our staff of audiologists and software support techs partner with you to manage your program and **prevent hearing loss - before it starts.**

hearing testing + audiometric review + AuD consulting + WPA software →

at the heart of hearing conservation are well-trained conservationists...

Our Doctor's or Audiology offer CAOHC Certified Conservationists Courses in order to fulfill our mission of hearing conservation for America's workforce.

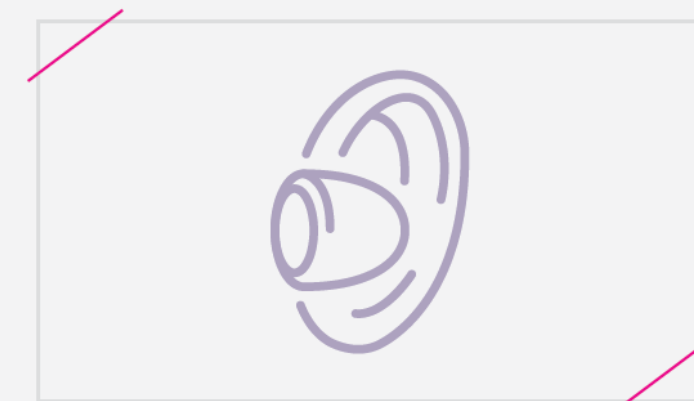

Workplace Integra is your complete source for CAOHC Training and Certifications

Private/In-house Training for your Team

Public Courses for Individuals

All Workplace|Integra courses are approved (and instructors are certified) by the Council for Accreditation in Occupational Hearing Conservation (CAOHC).

our focus

founded over 22 years ago with the focus of providing software and services to prevent hearing loss in the workplace
